Is your school equipped for future challenges?

The Right Approach

It's quite a while in the modern days that educational institutions have acquired a form of profit earning businesses. And like many other service businesses it has also proved very lucrative in a sense that the nations like Pakistan are deriving the twofold benefits; the growth in literacy and fight against unemployment. LKSIS has been designed to serve on both fronts; fostering education and the profits.

LKSIS is so cunningly designed to capitalize every little aspect of the school dynamics. It's not mere digitization of school or the paper saving solution. It is a big bunch of insightful reports that constitute a sound **Decision Support System** for your school to steer smoothly right through the tough competitive environment.

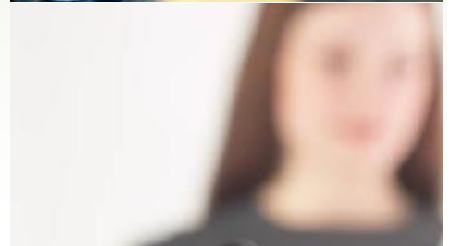

Building rapport with customers is not possible without constant link. LKSIS cannot overlook it, unlike any other information system available in the market LKSIS has devised an ingenious strategy to transfer the benefit of information to the parents who in turn can propagate your name deep in social media, boost up your goodwill and community awareness.

Gird your loins for the Market Leadership

Area of challenges for almost every business has silently changed over past few years to a new battleground known as technology. It's never too late to embrace a change. Prepare yourself for the use of best Edu-Biz solution available in town – the LKSIS. You don't need a load of money for this step forward but you need a spirit to enter in the realm of social and information technology. Believe! It's already here, never be deluded by the conservative thoughts.

While many schools are striving for survival in the sharply shifting environment, LKSIS is your chance to excel and ensure your compatibility with the future.

Understanding the Benefits

One benefit of using LKSIS as a management tool is that you can reach data from any device, such as desktop computer, laptop, android smart phone, iPhone, Chromebook etc. While your main goal of using LKSIS might be to streamline your tasks, the key to a successful use of LKSIS is making it useful to your customers – which are parents in this case. A great way to add useful content to your parents portal is to develop and write daily student diary in a smart way especially by adding videos in it, you can upload routine test marks or give away awards and badges to students on proper grounds.

You can also research about the effects of your decisions on your business activities by exploring various reports. You can work on LKSIS in a variety of ways, we recommend to keep your work paperless as much as possible. Much of the effort you put in your daily tasks is utilized by LKSIS to generate useful data depictions and scenarios stretched over months and academic sessions.

Join LKSIS and become live and smart 24/7

Complete your tasks swiftly and stay

LKSIS focused

with LKSIS tasks are very artfully divided among all the actors thus reducing the redundancy of the tasks and its accumulation on a single table. Teachers get their share of work and even the parents are not just the spectators. As far as the role of Parents in LKSIS is concerned there lies an opportunity to school to capitalize this big number of human brains to input their feedback and perpetuate the name of school via their presence in social media.

School's Tasks

- Manage Class/ Sections
 - Exam Management
 - Students' Admission
 - Awards & Badges
